INTELLIGENT VOICE, ENERGY & WATER

Invev Utility Management Solutions are the recommended utility partners of the Northwich Business Improvement District (BID). As a member of the Northwich BID your business is entitled to our Utility Management Services for FREE.

Our aim is for you to really gain the benefits of being a BID member by providing a return on your investment.

Our team have over 20 years of experience in saving businesses money. We work hard as we fully understand how difficult a business has to work to make money and how much of that money earned is lost to overheads and taxation.

Our offer is simple. We take a look at your Bills and if we can save you money we will! With your authority we do all the work, completely free of charge.

VOICE & BROADBAND

You could save money on all your communication costs, a detailed comparison and review of your bills can demonstrate huge savings which are hard to ignore. We can save you money on your calls, lines, broadband and data, and tailor packages to match your business needs. Regardless of whether you are a contact/call centre or a small business with just a single line we will match up a plan that delivers on cost, service and security. Simply show us a bill and we will provide you with a comparison to show you a saving.

ENERGY

It couldn't be easier to save money on your energy bills, however we find that despite that, surveys show around 98% of businesses are concerned about rising costs.

The majority of businesses do not have the time to investigate the deals the market has to offer, or engage the employment of an on-site energy manager as the PLC's such as supermarkets, large manufacturers or retail chains do. That is why thousands of our customers have employed our services and enjoy millions of pounds worth of savings.

WATER

Due to the complexity of pricing structures and the reorganisation of water companies many businesses are paying more than they should for their services. We are currently helping to reduce the amount of water that they waste, reducing costs and claiming water/sewerage rebates.

Frequently asked Questions:

Q1. How much do your services cost?

A1. Our services are free of charge, we get paid by the suppliers.

Q2. Changing suppliers can be problematic can't it?

A2. Yes it can but that's where we come in, we liaise with the suppliers and do the work for you. Also we often arrange savings without the need to change supplier.

Q3. How much can we save?

A3. This year the most we've saved somebody is 56%. Typically it's between 20% and 30%!

Q4. Why would we use you and not another broker or consultant?

A4. We are recommended by the Northwich BID and are used by other UK BIDS too. We have many years experience in the utility market and have saved over 30,000 businesses tens of millions of pounds in total!

"Electricity is one of our biggest overheads so this saving is very welcome indeed. It makes us more profitable and frees up money to reinvest in the business. We worked closely with the BID's joint procurement partner to identify the saving and would highly recommend it" - Julia Edwardson of Northwich Dry Cleaners.
